

Bottom-feed, Overlock / Safety Stitch Machine for Extra Heavy-weight Materials

MO-6900G Series

Variable Top-feed, Overlock / Safety Stitch Machine for Extra Heavy-weight Materials

MO-6900J Series

MO-6900G, MO-6900J Series

An advanced full-featured machine that is ideally suited to the sewing of extra heavy-weight materials.

The machine incorporates a mechanism and parts that are optimum for the sewing of extra heavy-weight materials, such as an extra high-lift type upper looper, tractor foot and coarse type feed dog.

It demonstrates an excellent performance ability in the sewing of various kinds of heavy-weight materials such as jeans, raised fabric materials, mats and carpets.

 The machine securely clamps the material at the beginning of sewing as well as smoothly sewing multi-layered parts of the material to facilitate the sewing of extra heavy-weight materials.

MO-6916G-FH6-700

MO-6916J-FH6-700

MO-6916J-FF6-70Q

The MO-6900J Series comes with a newly-developed feed mechanism that moves the top and bottom feeds separately.
 With its improved feeding capacity and stronger cloth-biting force, the feed mechanism prevents uneven material feed when sewing extra heavy-weight materials.

MO-6916J-FH6-700

- The machine incorporates mechanisms that are both durable and reliable, such as the needle bar mechanism, utilyzing the upper and lower bushings, a cartridge type oil filter and cooling fan.
- The machine is equipped as standard with a micro-lifter that helps reduce operator fatigue. The micro-lifter is designed to achieve optimum balance, not only reducing noise and vibration but also ensuring comfortable operation.
- Needle thread heat remover and needle cooler prevent stitching troubles during times of high-speed sewing, thereby contributing to upgraded seam quality.
- The machine comes standard with various adjusting mechanisms, such as a micro-adjusting mechanism, all of which can be easily adjusted to enable the machine to perform sewing under the best-suited conditions for any kind of material.

SPECIFICATIONS

MO-6900G Series

Model name	MO-6904G	MO-6914G	MO-6916G			
Stitch type	1-needle overlock	2-needle overlock	Safety stitching			
Stitch style in the U.S.A.	504	514	516			
Max. sewing speed		6,000rpm				
Stitch length	2.5 ~ 5mm	2.5 ~ 4mm	2.5 ~ 5mm			
Needle gauge (mm)	-	2.6	4.8			
Overedging width (mm)	4.8, 10.0, 18.0	6.4	4.8, 6.4			
Differential feed ratio	For gathering 1:1.75 (max. 1:3.8) For stretching 1:0.7 (max. 1:0.6)	For gathering 1:2 (max. 1:3.8) For stretching 1:0.8 (max. 1:0.6)	For gathering 1:1.75 (max. 1:3.8) For stretching 1:0.7 (max. 1:0.6)			
Needle bar stroke		28.8mm				
Inclination angle of the needle		20°				
Needle bar bushing		Upper/lower bushing method				
Needle	DO:	x 5 (excluding some subclass mo	odel)			
Max. lift of the presser foot	8m	m (excluding some subclass mod	del)			
Max. presser foot pressure		63.7N (6.5kg)				
Stitch adjusting method		By push-button				
Differential-feed adjusting method	By lever (with micro-adjustment)					
Weight of the machine head		28kg				
Lubrication	Automatic					
Lubricating oil	JUKI Machine Oil 18 (equivalent to ISO VG18)					
Needle cooler	Provided as	s standard (excluding some subc	lass model)			
Needle thread heat remover		Provided as standard				
Micro-lifter		Provided as standard				

MO-6900J Series
