

With the strength for seaming heavyweights...
the Union Special® 38200C24 Samson

The heavy-duty three-needle 40I stitch machine with lots of work space

From canvas to woven poly to heavy gauge vinyl, the Samson is the ideal machine for seaming operations on tents, awnings, pool covers, truck tarps, boat tarps, banners, etc. After all, efficient handling of heavyweight materials is what the Union Special® 38200C24 was designed for; that's why it's named the Samson.

A unique drive enables the 40" long sewing arm to sew through up to a half-inch of some types of materials, without losing power or speed. This wide under arm space eliminates the effort and time needed to fold and roll wide sections of material during seaming operations.

The Samson is a 24 gauge machine (3/8", 9.5mm) with a powerful roller puller built-in behind the needles. The entire sewing head is mounted to a solidly manufactured steel stand which is fitted with casters for mobility.

 **Union Special**
Finest Quality Industrial Sewing Equipment

The Union Special® 38200C24 Samson—
the strength and space you need
for seaming bulky, heavyweight materials.

The 38200C24 Samson from Union Special Corporation

The heavy-duty three-needle machine for seaming operations on canvas and other heavyweight materials.

DESCRIPTION			SPECIFICATIONS
